Robert V. Antonucci  
Commissioner

August 1997

**Dear Colleagues,**

I am pleased to share with you the 1997 Commonwealth of Massachusetts *Directory of Educator Preparation Programs*. This publication lists all the state-approved educator preparation programs in public and private colleges and universities in the Commonwealth. It also includes approved "Innovative and Experimental" programs offered through other nonprofit organizations.

Since enactment of the Massachusetts Education Reform Act in 1993, colleges and universities have been moving to prepare new teachers to help their students meet the challenging learning standards in new statewide Curriculum Frameworks. These institutions also are beginning to incorporate the Board of Education's *Principles of Effective Teaching* and of *Effective Administrative Leadership* in their preparation programs. Since 1994, successful certification candidates have been required to hold a bachelor's degree in arts or sciences. Applicants for certification will have to pass tests of communication and literacy skills and of subject matter knowledge beginning in January 1998.

This directory provides information on the availability and location of approved programs to guide prospective students, in and out of state, in their educational choices. It also can be used to assist states and other jurisdictions to determine whether applicants for certification coming from Massachusetts have fulfilled requirements for reciprocity under the interstate contract of the National Association of Directors of Teacher Education and Certification. I hope this directory is helpful to you.

Sincerely,

*Robert V. Antonucci*

Robert V. Antonucci  
Commissioner of Education

## FOREWORD

Since 1974, successful completion of a state-approved program has been the primary route to teacher certification in Massachusetts. To be approved, a program must meet all institutional and program standards as outlined in the *Regulations for the Certification of Educational Personnel in Massachusetts (603 CMR 7.00)* which were promulgated by the Board of Education pursuant to Massachusetts General Laws Chapter 71, section 38G. These standards have been deemed equivalent to standards of the National Association of State Directors of Teacher Education and Certification (NASDTEC) by its Standards Committee.

Every five years, educator preparation programs undergo a two-stage review (portfolio and onsite) by a team of peers, with the assistance of a state coordinator. Based on the results of the portfolio review, institutions may elect to proceed by offering their programs for review on site or they may withdraw programs that appear unlikely to be approved. Following the onsite review, the team prepares a report and recommends approval of only those programs that meet all standards. The Commissioner of Education makes the final decision.

Undergraduate (U) and graduate (G) programs are identified for each institution in the *Directory*. Candidates recommended for certification by an institution with state-approved educator preparation programs should have the following endorsement on their transcripts:

*This candidate has completed a State and NASDTEC approved program in (certificate name and level) at the (Advanced Provisional or Standard) stage and is institutionally recommended for certification in this area.*

---

If you have any questions, you may feel free to consult with the Preparation Program Contact Person for the institution listed at the end of this document. Inquiries may also be directed to **Dr. Carol M. Gilbert, Administrator for Certification and Professional Development Coordination**, at (617)388-3300, ext. 227 or to any of the state program approval coordinators:

**Dr. Margaret L. Cassidy**  
(617)388-3300, ext. 230
